SUMMARY

Full Stack Software Engineer with over 3 years of experience designing, developing, and maintaining scalable web applications in Agile environments. Proficient in NextJS, ReactJS, NodeJS, TypeScript, and Database Management with PostgreSQL. Strong expertise in translating business requirements into reliable technical solutions, collaborating with cross-functional teams, and ensuring high-quality production releases. Passionate about clean architecture, performance optimization, and continuous improvement.

TECHNICAL SKILLS

- **Programming Languages:** Java, TypeScript, JavaScript
- **Frontend:** Next.js, React, Angular 13, Tailwind CSS, Material UI, NextUI, HTML5, CSS, SCSS
- **Backend:** Node.js, NestJS, Spring Boot
- **Databases:** PostgreSQL, MySQL, DynamoDB
- **Cloud & Infrastructure:** AWS (S3, DynamoDB, SNS), Firebase
- **Dev Tools & Platforms:** Github, Bitbucket, phpMyAdmin, Postman, Jira
- **Enterprise & CMS Technologies:** Microsoft Dynamics 365, Power Apps, WordPress (PHP, Timber Twig)
- **Security & Integration:** TypeORM, BouncyCastle (S/MIME)

PROFESSIONAL EXPERIENCE

- **Software Engineer | DxHy Digital (Pvt) Ltd | Feb 2023 – Aug 2025**
 - Developed and maintained scalable full-stack web applications using Next.js, NestJS, and PostgreSQL
 - Contributed to a UK-based healthcare assessment management system, implementing both frontend and backend features along with API integration.
 - Built responsive UI components using Next.js, TypeScript, and Tailwind CSS
 - Developed CMS-driven web solutions using WordPress, PHP, and Timber Twig
 - Collaborated with cross-functional and international teams in an Agile/Scrum environment using Jira
 - Participated in requirement analysis, feature planning, code reviews, and production deployments
- **Software Engineer - Intern | Adroitlogic Lanka (Pvt) Ltd. | June 2022 – Dec 2022**
 - Contributed to full-stack development across frontend and backend systems.
 - Developed admin dashboard modules for the Support Tracker platform (customer ticketing system)
 - Worked on B2B file exchange solutions, including AS2 Gateway and MFT Gateway, supporting secure data transmission between enterprise systems along with Basic Authentication.

INDUSTRIAL PROJECTS

CBAT – UK Healthcare Assessment Management System

- Served as the main full-stack developer for 6 months, independently delivering complete features.
- Designed frontend modules using Next.js, Redux, and Tailwind CSS.
- Built backend services using NestJS and TypeORM with PostgreSQL integration and APIs.
- Worked with AWS SNS-based email notification workflows, AWS SQS for asynchronous processing, and AWS S3 for secure file storage and retrieval.
- Executed database seeding scripts and optimized backend logic, including scheduled cron jobs.
- **Tech Stack:** Next.js, NextUI, Redux, TypeScript, Rest API, Tailwind CSS, NestJS, TypeORM, PostgreSQL, GitHub, AWS

DxHy Official Website

- Led the end-to-end technical implementation of the company's official website from architectural setup to production release.
- Implemented scalable, responsive frontend components using Next.js and TailwindCSS.
- Managed deployment, release lifecycle, and production environment configuration.
- Successfully delivered and launched the website to live production.
- **Tech Stack:** Next.js, Redux, TypeScript, NestJS, TypeORM, PostgreSQL

AS2 & MFT Gateway – Enterprise Secure File Exchange Platforms

- Contributed to the implementation of AS2 protocol-based B2B file exchange systems.
- Implemented S/MIME encryption and digital signing using BouncyCastle.
- Developed message validation mechanisms and MIC mismatch email notifications.
- Added custom Basic Authentication header support.
- **Tech Stack:** Angular 13, Java, Spring Boot, Node.js, AWS, DynamoDB, BitBucket

Support Tracker – Customer Ticketing System

- Developed complete admin management interfaces, including Companies, Admins, and Users modules.
- Integrated frontend (Angular 13, Material UI) with backend (Spring Boot).
- Executed real-time updates and secure synchronization using Firebase.
- **Tech Stack:** Angular 13, HTML5, MaterialUI, Java, SpringBoot, Firebase, BitBucket

Vital Strategies, Vera, Conservation Fund :

- Collaborated with US-based stakeholders and cross-functional teams to implement and enhance WordPress websites.
- Developed reusable CMS components and custom templates using **WordPress (PHP)**.
- Implemented interactive data visualizations using Chart.js and D3.js.
- Implemented responsive UI styling using **SCSS and CSS**.

PERSONAL PROJECTS

Ayurdi Ayurveda - <https://ayurdiayurveda.com>

- Designed and implemented a responsive production website using **Next.js, TypeScript, and Firebase**.
- Built reusable UI components with **NextUI and Tailwind CSS**.
- Structured, scalable routing and component architecture.
- Managed deployment and ongoing maintenance.
- Optimized performance and responsiveness across devices.

POS System – Isidi Aquarium.

- Designed and developed a Point of Sale Inventory & Sales Management System (BSc Final Year Project)
- Designed relational database schema and integrated with MySQL.
- **Tech Stack:** JavaFX, Hibernate, MySQL

EDUCATION

B.Sc. (Hons) in Applied Sciences

University of Peradeniya | 2017 – 2022

Followed subjects: Computer Science, Statistics, Mathematics

EXTRA-CURRICULAR ACTIVITIES

- Active member of the Computer Science Society (CSUP), University of Peradeniya.
- Committee member of the Art Circle, Faculty of Science, University of Peradeniya.
- Organized and Participated in Thath Nada Wassa (Musical Orchestra), University of Peradeniya.
- Senior prefect (2015), Dharmasoka College, Ambalangoda.
- Apprentice prefect (2014), Dharmasoka College.
- A Girl Scout from 2008-2009, Dharmasoka College.
- Member of Euclid Circle (2008-2009) of Dharmasoka College
